Power supply	220-240V
Light Source	14 W LED, ~3000 K (with an in-line dimmer)
Weight	1,6 kg

Installation and User Manual:

- Carefully remove the packaging and check that all components are complete and undamaged.
- If any transport damage is detected, report it to the seller before assembly.
- It is recommended to assemble the lamp while wearing gloves.
- If any damage occurred during transport, report it to the seller.
- Place the glass shade onto the metal stem with the wider opening facing downward.
- Position the LED module on the stem with the technical side (LED plate and wires) facing downward, preparing it for connection.
- Connect the LED wires, tightening them in the connector block with a screwdriver (brown to brown, blue to blue).
- Place the aluminium shade on top and gently tighten the upper nipple to secure the structure.
- After assembly is complete, connect the lamp to the power supply.

Maintenance Tips:

- Use a soft, dry, or slightly damp cloth to wipe off dust.
- Do not use any aggressive cleaning agents, as this may cause permanent stains or discoloration of the lamp.
- Keep the user manual.

Aeroplan Table
