

# Longa Horizontal

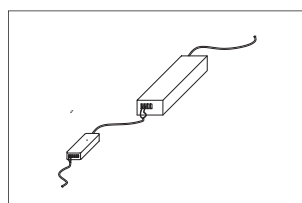

design: 2024, Cezary Zadorożny

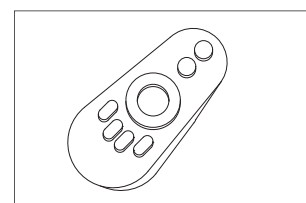

[1] Steel cables

[2] Steel cable block

[3] Power supply set

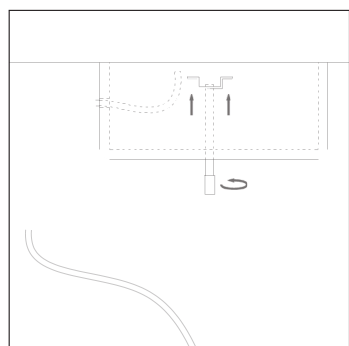

[4] Remote control

## Installation instructions for the Longa Horizontal pendant lamp:

### PREPARING THE LAMP

1. Attach the steel cables [1] to the lamp as shown in the provided illustration, securing them into a “loop” using the aluminum locking element [2].
2. The cables are equipped with stoppers and ceiling mounts.
3. Once the lamp is prepared, proceed to hang it.

### CEILING INSTALLATION

1. Mount the steel cables [1] to the ceiling using the fittings included with the cables.
2. Hide the cable along with the power supply unit [3] inside the concrete ceiling recess as shown in the diagram.
3. Secure the ceiling cover with the power supply unit by tightening the steel hook provided in the set.
4. Attach the cover with the cable to the ceiling mount.
5. The set includes a remote control [4].
